4.1	Module Not Detected	3
4.2	Common Installation Issues	3
5	Support	3

Overview

Scroll Top adds an intuitive icon at the corner of each page so that with one click you will be at the top of the page. No more dragging of the scroll bar. It will be just fun and ergonomic to use.

Installation

Composer Installation

```
composer require hk2/scrolltop
```

Enable Module

```
bin/magento module:enable HK2_ScrollTop
```

Run Setup Upgrade

```
bin/magento setup:upgrade
```

Compile Dependency Injection

```
bin/magento setup:di:compile
```

Deploy Static Content (Production Mode Only)

```
bin/magento setup:static-content:deploy
```

Clean Cache

```
bin/magento cache:clean
```

Flush Cache

```
bin/magento cache:flush
```

Verification

1. Verify the module is enabled.
2. Verify configuration settings exist.
3. Verify frontend functionality works.
4. Verify no errors exist in the Magento logs.

Uninstallation

Disable Module

```
bin/magento module:disable HK2_ScrollTop
```

Remove Package

```
composer remove hk2/scrolltop
```

Run Setup Upgrade

```
bin/magento setup:upgrade
```

Clean and Flush Cache

```
bin/magento cache:clean && bin/magento cache:flush
```

Production Mode Cleanup

```
bin/magento setup:di:compile  
bin/magento setup:static-content:deploy
```

Troubleshooting

Module Not Detected

```
bin/magento module:status HK2_ScrollTop
```

Common Installation Issues

Issue	Resolution
Module not enabled	Verify module status.
Composer issue	Verify package installation.
Compilation error	Run Dependency Injection compilation again.
Cache issue	Flush Magento caches.
Permission issue	Verify filesystem ownership and permissions.
